a
Run 1: junction indel = cut error
394 GNNome junctions, Run 1
Pearson r = 0.998
exact match 370/394
Observed net indel at junction (bp)
Predicted cut error from read truth (bp)
b
Run 1: overlap-length accuracy
Cumulative fraction
|cut error| of true edges (bp)
written in GFA (Raven's own length)
reverse-complement twin (length reused)
c
Run 2: overlap-length accuracy
Cumulative fraction
|cut error| of true edges (bp)
written in GFA (Raven's own length)
reverse-complement twin (length reused)
